**What is a DO?**

There are only two types of physicians licensed for the unlimited practice of medicine in all 50 states: those who have earned the DO degree - Doctor of Osteopathic Medicine - and the MD. They work side by side and in partnership with each other throughout the United States and internationally.

Osteopathic physicians occupy all specialties – they perform surgery, deliver babies, and prescribe medicine in hospitals and clinics across the nation. Whether family docs or specialists, DOs are trained to use all the tools of modern medicine and more. They help their patients develop attitudes and lifestyles that don't just fight illness but help to prevent it. They give special attention to how the body's nerves, muscles, bones, and other organs work together to influence health. And, through osteopathic manipulative treatment, they encourage the body's natural ability to heal itself.

These “extra touches” distinguish the DO's whole-person philosophy of medicine. It's a century-old tradition of caring for people, not just treating symptoms.

It's one of the fastest growing medical professions! Currently, 1 in 4 medical students are enrolled in an Osteopathic medical school and that ratio will be 1 in 3 soon at the current rapid rate of growth!

**Did You Know?**

*Vendor representatives serve a valued function in educating our DO's. We appreciate the part you play in the continuing medical education process.*

The assistance of our device suppliers, pharmaceutical partners, testing labs, management specialists, physician employers, and others is critical to the continuing development of the osteopathic profession in Louisiana. Come help educate our physicians as they earn CMEs at LOMA's 2022 Annual Convention. Thank You!!!
